Thanks for your update. As much as ""I"" want to be there I will be unable. I am self-employed and have to be on a job at that time. 10:00 AM is never a good time for me. Later in the afternoon it would work much better, sorry. I am glad I, at least offered my reasons, 2 times to the council, even my wife, Judy, sent her concerns to them, concerning her concerns why this proposed Gas Station should not be considered. There are several homes, just behind the proposed gas station, that will be totally impacted by the lights that will always be on during the night time into the AM when the sun rises. This will impact everyone in that area, very costly when and if they had to sell their homes. How wants to have that to dial with???? Not to again mention, there is a playground just across the street.

I hear that this "SMALL" piece of land could be zoned commercial?? How would anyone, working in the zoning dept., would do that?? in a residential development??? They should be removed from their jobs ASAP!!!!

Please pass this last ""REQUEST TO STOP THIS FROM HAPPENING, PLEASE"" to everyone on the board.

Thanks, Bill & Judy DeRanek

**Subject:** Project# 20-310: Hearing Reminder  
**Importance:** High

Good afternoon all,

First, I apologize for the late response. As luck would have it, I got *quite* sick last week and was out of the office Wed-Fri. However, I wanted to send out one last email to all the parties of record before the hearing tomorrow morning at 10am. I have received several emails from folks asking to be added to the list of commenters for tomorrow's hearing, so I wanted to clarify how to do that. I sent out the revised link for the hearing last week, and I'll post it again below. If you want to provide testimony at the hearing, you will need to register at the link below; it will ask you if you want to provide comment. When the public comment portion of the hearing begins, the Hearings Examiner will have a list of people who have indicated that they want to comment and will use that to call on folks. (Our support staff will promote users once they are called by the Hearings Examiner.)

One other question that has come up in multiple emails is in regard to length of comment. While there is no specified time limit, the Hearings Examiner may decide to set a time limit, in the interest of ensuring that everyone is able to comment. My recommendation would be to try to limit your comments to three minutes, because I expect there will be quite a few people wishing to provide testimony. However, the Hearings Examiner will provide more information at the hearing.

Last, unbeknownst to me, the City updated their website last week and the project page did not immediately get carried over. However, it is up again, and can be found [here](#). I apologize for the confusion.

Thank you,

I live in the Hawks Prairie area and take grandchildren to the park, right across from the proposed gas station. I do not understand why the city of Lacey even thought that that is ok. You probably heard everything from all the people in the Hawks Prairie area about why it's not a good idea, I worry about the neighborhood, children playing, cars pulling in and out of the gas station, noises all day and night, ground could get contaminated, the value of the homes are decreasing, and I could go on and on.

So please put a family home on that property and the gas station at a different location more appropriate.

Thank you,

Irene Ritchie

Hi Samra,

I have several concerns regarding the proposed Meridian Market at the corner of Willamette & Campus Glen Drive here in Lacey. The developer appears to be deliberately deceptive with their "Market Narrative" making no mention of a GAS STATION anywhere in the entire document. This is a critically important detail it seems they are attempting to gloss over.

The entire proposal, according to their narrative, is predicated around serving the community with a "farmers market style store" citing the "frustration & difficulty" of currently having to cross over the I-5 freeway to shop for groceries. They specifically state this as the main reason they are wanting to develop this project and "cater to the Meridian Campus community".

There is no logic to this reasoning as construction is already underway on the Hogum Bay Town Center at the corner of Willamette Drive & Marvin Rd NE less than 2 miles from the proposed Meridian Market on the same side of the freeway. The first 2 phases of this new town center include no less than 75,000 square feet of mixed-use commercial, food & restaurant lease space. Furthermore, the proposed market is directly across the street from a city park seasonally full of children running all over the place and shares a property line with single family homes. The last thing we need in Meridian Campus is another market, especially one with a GAS STATION and all of the associated noise, activity and increased traffic that will inevitably come with it.

Better suited to the site would be small commercial spaces available for lease by individual business similar to those a block or two away that include a cafe, coffee shop, dental office, accountant office, etc. A GAS STATION is simply not a good fit at this location given the proximity to the park and nearby homes.

In closing I would like to express my concern for having a public hearing at this stage of the process in the first place. After writing a letter to the hearing examiner's office a family member of mine was informed by someone from said office that the project essentially can not be stopped at this point; that if the city did not move forward with approval it would be against the rules & regulations that previous staff and residents put in place and would be illegal to stop. Furthermore, the city would be sued, challenged in court and subsequently lose. If this is true I fail to understand the logic in having the public chime in this late in the process other than to simply check off a box on the application documents.

Thank you for your time & effort adding my thoughts to the public record.

Ok. Serious car crash into trees on Willamette Saturday night. . Photos show vehicle and fire trucks. 3 people have to be extracted from the vehicle. This is the kind of thing we need to stop. The lack of respect for our neighborhoods by those who don't live here. Afraid the gas station would encourage more of the speeding. Thank you, Pat LeRoy

Samra,

This is the best I can do to partner with my short explanation. This is the type of recklessness we see often on the Willamette Drive. The gas station just brings other careless drivers into our community. They dont live here and have no respect for our community. This was Saturday night, April 8, 2022. As noted below, thank God it wasn't during the day, such as 3 -6pm when kids and families are everywhere.

Pat Le Roy

Dear Samara,

As I am unable to attend the zoom meeting on April 12th, please forward my email onto the hearings examiner.

As a homeowner in Campus Meadows, I am opposed to having a gas station/convenience store at the corner of Willamette & Campus Glen Drive. This type of business has no place in a residential neighborhood & would negatively impact the livability of our beautiful area.

This business would be directly across the street from a neighborhood park where children & families gather & in close proximity to a middle school & future elementary school. Safety is of major concern. According to a friend of mine who is a former police chief, gas station/convenience stores breed crime. Do we really want to put our children & residents at risk? As a single, senior citizen, I would no longer feel safe in my own home. In all honesty, if this project is approved, I would be forced to move, which would impact me financially.

I'm also concerned about the amount of traffic this type of business would bring. As it is, it's often difficult to navigate that intersection. I was informed the city plans to place a roundabout at that location. I can't imagine tanker trucks trying to make those turns. Or for that matter, driving up & down Willamette,

Recently, there's been a lot of street racing on both Willamette & Campus Glen Drive. Last Saturday evening, there was a single car crash on Willamette involving 3 young people. It was reported they were traveling at a high rate of speed & hit a tree. Having a gas station at the location would attract more young people with less desirable behaviors. Would alcohol be sold?

The environmental impact this type of business would bring is concerning. Why has the city decided no geological study is necessary? This proposed project is in close proximity to a trail & homes. Shouldn't that be taken into consideration? Has the parks department had a say so on this project?

I attended a zoom meeting last spring. Ms. Seymour stated that the developer had a desire to enhance the livability of our community & provide a business that would increase "walk ability." A gas station does the complete opposite. We have enough gas stations in the area & we certainly don't need another one. Especially in a residential neighborhood! As far as the convenience store portion of this business, I don't believe it will be frequented by our community members. It was brought up in one of the studies that a lot of warehouse workers would shop there. With the amount of potential litter, is THAT desirable? I think not & shudder to think of what our neighborhood would look like a year or two from now. Take a

look at the Arco Station on the corner of Marvin & Hawks Prairie. In addition to litter, there's a lot of blue tarps. Again, undesirable & would only decrease our property values.

Please consider the residents of this community when making your final decision. If you've ever driven through this neighborhood, you'll see it's absolutely beautiful. One of tree lined streets & well maintained homes. Where families live & play, living out their dreams. Having a business like this would destroy all we've worked hard for.

Personally, I'm not opposed to having a business at that location. It's the TYPE of business.

Thank you

Respectfully,

Gail Emerson

I'm writing regarding trees. If Lacey advertise being a tree city why are so many being destroyed.

I'm referring to the recent clearing of Willamette/Marvin two properties. Each time I drive by which is often I feel like I'm in the wrong place.

A small buffer of trees were left at one property. I see them starting a foundation right by the street. I see this as bad for the city of Lacey's imagine as a tree city.

A boarder of trees plus sidewalk would have added to the landscape. A parking lot of tall trees have would have enhanced property. How is Lacey a tree city when we are concerned about globel warming. Then clear cutting tall fir trees which would enhance the property. How can we be an cleaner enhanced community if all the big earth cleaning tall trees are being paved over by cement then planting little trees. Those small trees will not clean the air we breath. Please do not allow clearing cutting the other properties surrounding Marvin close to I-5/Marvin properties.

The residents of Jubilee do not like all of the warehouses. They have not enhanced the tree city concept not to mention taking away the view of mount Rainier which we dearly love. I they have add trees to the Marvin trees left by the road. This allowed for a better look even against the cement building.

The trees removed at the water tower 41st/ Marvin. There are more planted around the property plus a nature trail access joining a present trail. Jubilee does appreciate the green space along 41st & Marvin. We do hope the lot on the corner stays with most of the trees. The property way listed for a school in 2008 when we moved in. We guess the school is now Salish. Please leave a buffer of trees. The earth needs trees that enhance the community.

Just informed of proposed mini-mart at 8808 Campus Dr NE, Lacey, WA.

My shocked response...surely the City of Lacey jests! Who in blazes thinks this is an appropriate location for a mini-mart? There are at least two mini-marts already within a mile or so of this location. Vehicle access to this location is extremely limited. One in/out on Campus Dr. The other on Willamette Dr. with newly installed cross walk hindering exit. The mart, with junk food, just blocks from middle school. Kids scooting across major 4 lane road for access. Noisy vehicle in and out traffic just across from a community park with youngsters and pets and adjacent to residential units.

With these my response again is, "Surely the City of Lacey jests!"

This monstrosity must not be allowed to go forward. "Come on!"

I have seen the public notice for the proposed mini mart across the street from the park and next to a residential area. For one thing we don't need another mini mart there are two on Marvin within a couple of miles. But how awful that you're even considering it. When I moved to Lacey we were called the city of trees and now we are the city of high warehouses, traffic congestion and mini marts. You don't have to cover every bite of space with commercial projects. Please reconsider and leave those homes and the park in peace.

Hearings Examiner

City of Lacey

420 College St. SE

Lacey, WA 98503

Dear Sir or Ma'am,

I'd like to add my name to the list of objectors to the proposed gas station at the corner of Willamette and Campus Glen. (Project #20-310) This is an extremely dangerous proposition due to the increase of vehicle traffic directly across the street from a busy park and at the major intersection where middle school students travel by foot/bicycle to and from Salish Middle School. I have three children who have walked to and from this park independently. I have also witnessed countless middle school children who pay little mind to oncoming traffic when school gets out. I also witness daily the speed limit of 35 being surpassed and the existing crosswalk being ignored by vehicle traffic. These factors alone make adding a gas station into the mix a dangerous proposition. As a child, I witnessed my own twin sister hit by a car, nearly dying. This single event created an extreme financial hardship for my family. It isn't difficult to do the math on child vs car outcomes.

There are countless other reasons to oppose this gas station, of which I also agree: environmental hazard, drop in adjacent property value, noise pollution, attraction of unwanted crime.

I respectfully ask you to reconsider this addition to the community. It is unwanted and unnecessary given the number of gas stations nearby.

Thank you for considering my input.

Respectfully,

Jeannine Leitch

RE: Development of convenience store, GAS STATION  
Hearing Examiner

2022

Dear Members:

I have been a home owner on 31<sup>st</sup> Ave NE Lacey WA for 37 years. I have watched this area grow and Lacey spend over this time. NW Investors LLC We already have 3 close by. They could build a assisted living facility. I want to state that I am "against" the development of a gas station convenience store being built in a residential neighborhood across the street from the park off of campus Glen Ave & Willamette Way N.E.  
We are not Pierce County or King County!

Having a gas station convenience store located this close to a park is asking for trouble with DRUGS (yes they are everywhere) and child endangerment. We are very close to I-5! It will be on all of your heads when this comes about with drug trafficking, child endangerment (kidnapping), sex traffic ect. Plus it's too close to a Middle School. SALL is too easy for kids to walk there, buy drugs etc...

I vote "ND"

Sincerely, Denise Peterson

9318 31<sup>st</sup> Ave NE  
Lacey WA 98516

APR 04 2022

Gentlemen -

Please do NOT even  
think of putting a gas station  
on Campus Green Drive.

The money hungry developers  
have no regard to family  
oriented neighborhoods.

They only are interested in  
property that will not  
have regard for  
family dwellings.

Absolutely no need or reason  
to build a hang-out location  
in our wonderful neighborhood.

I will protest vigorously.

I am 89 yr old & want  
to protect our long dwindling  
family residence.

BY \_\_\_\_\_

March 29, 2022

Hearings Examiner  
420 College Street  
Lacey, WA 98503

RE: Gas Station at Campus Glen Drive

Please make note of my strong opposition to a development by Northwest Investors in this family oriented neighborhood.

The developers certainly can find a location that is NOT near a children's park or Middle School pedestrians crossing. It is a terrible idea and one that could possibly have potential dangers. This location is a family neighborhood and should remain that way. There are plenty of other spots that could be used.

This area is already covered by two near-by gas stations; a 7-11 at Marvin Road and Britton Parkway and an ARCO located at Marvin Road and Hawks Prairie Road.

Besides that, I know for a fact that most folks buy their gas at COSTCO which is conveniently close and their prices cannot be beat !!

I sincerely hope that you listen to the people that make their homes in the Campus Glen area. They certainly have legitimate concerns about the safety and welfare of their children.

Sincerely,

Beverly J, Orrock

**Deny Permit to Build Chevron Gas Station  
Let's Build Renewable Energy Instead**

Project Name: 20-310 Meridian Campus Chevron

Project Location: 3540 Willamette Dr, NE, Lacey, WA

RECEIVED

APR 1 2022

BY \_\_\_\_\_

We, the undersigned, petition the City of Lacey Department of Community Development to deny the permit for the Chevron Gas Station at the above address for the reasons outlined below:

Climate change and global warming are undeniable realities that must be addressed with the greatest urgency. [Maps of projected sea level rise show that much of downtown Olympia will be under water by the end of this century.](#) Our climate is changing even faster than most scientists have predicted. [The latest heat wave may have killed hundreds of millions of marine animals!](#)

Wildfires and drought are increasing across the nation and right here in our own state. [We are in the midst of yet another mass extinction of species which threatens even our own beloved salmon and Orca populations.](#)

Scientists also tell us that the warming of our climate is exacerbated by the burning of fossil fuels.

Therefore, if we are going to move away from our dependence on fossil fuels, we must stop building the fossil fuel infrastructure that perpetuates our dependence. Why are we continuing to put the lives of future generations of our children and all species at risk?

We must change our way of thinking, and we change our way of thinking by changing the way we act. Changing our actions means that we stop building infrastructure that perpetuates this downward spiral.

While mayor Andy Ryder and other council members say they support efforts to address climate change, they cannot address climate change and continue the business-as-usual perpetuation of the problem.

We, the undersigned, urge you to deny this proposal to build the Chevron station at the corner of Willamette Dr NE and Campus Glen Dr NE.

Thank you.

**We, the undersigned, urge you to deny this proposal to build the Chevron station at the corner of Willamette Dr NE and Campus Glen Dr NE.**

To the hearings examiner:

As grandparents of two children attending Salish Middle School, we want to express our opposition to the gas station and market being proposed on Willamette Drive. We have been dropping off and picking up our two grandchildren for the last year since school started and I can tell you that during certain hours, there is much pedestrian activity on or near the corner of the proposed gas station. In addition there are times of heavy traffic related to the school. Many children are jay walking and or crossing both Willamette Drive as well as Campus Glen. I cannot imagine cars and tanker trucks pulling in and out of that proposed station and believe that the station poses a safety hazard due to its particular location near the school and the park.

I also believe that the market could be a nuisance to unsupervised students who wander into the store without their parents. We have no control over what merchandise is sold in the market, some of which might not be appropriate for children without their parents. I have seen such markets near schools and they can also become places where students congregate. These are not high school students. They are middle schoolers.

Thirdly, we have at least four stations within 2.5 miles, one of which is Costco. I myself would bypass this proposed station to get the cheaper gas at Costco. I suspect the same would be true for others. There is no community need for a gas station in this location. Given the projection of conversion to electric cars in the next decade, permitting one more gas station seems highly short sighted and not in line with the attempt to reduce carbon emissions by the year 2030.

I would hope the planning committee would balance the many different needs of a healthy community: health and safety, ecology, tree preservation, protection of children and business interests. I trust that the desire of the city to receive taxes from businesses does not take precedence over other very important needs.

Thank you for considering these concerns.

Cordially,

With absolute certainty, I am completely in opposition of a gas station being placed in such a terrible location. My opposition comes from a prior experience in a previous neighborhood we lived in while stationed in the military. There were gas spilled by irresponsible pedestrians causing serious environmental consequences as well as a certain chemical smell all the time. Second, the crowd that it brought degraded the whole neighborhood and made the rest by areas uncleanly. Trash slowly got worse and eventually the area just never looked the same. We luckily moved from there but recently we have come to find out the new neighborhood we currently live in is now doing the same thing. It would be an absolutely disgrace to see this happen, it's not even a great place to put one as there are three gas stations within a mile or two near. I live in the Meridian Campus and love taking our little by to the park. I would hate to see an ugly gas station right across the street let alone seeing the ensemble and entourage that comes with it. Please find it in your minds not to place this gas station in this area thank you.

Re: **Project #20-310**  
**Proposed Gas Station/Retail**  
**Willamette Drive and Campus Glen Drive**

Statement to Be Entered into Public Record:

My name is Sarah Daniels and I have been a City of Lacey Parks and Recreation Commissioner for the past four years. Although I do not represent the Parks Board by making this statement, I mention my role since it is this in-depth experience as a Parks Commissioner that, in part, contributes to my reaction to the proposed Chevron gas station and accompanying retail development at the intersection of Willamette Drive and Campus Glen Drive in Lacey.

As a Parks Commissioner, I have learned the significant difference between the sizes and types of parks in Lacey. A facility like the Regional Athletic Complex, for example, would be a natural fit for an adjacent development of retail/convenience offerings, including gas, grab-and-go foods, etc. Even a community park, which is larger by definition, might comfortably incorporate a nearby gas station. However, the proposed location for this Chevron/retail development is directly across from a neighborhood park, Meridian Campus. To introduce a retail establishment that will sell tobacco and alcohol products in immediate proximity to this small park feels irresponsible and certainly invites high-risk situations – likely involving neighborhood minors.

As you will certainly hear from others who live in the neighborhood, the proposed Chevron/retail location is also just two blocks away from Salish Middle School. In addition, the neighborhood park in question butts up against open space owned by North Thurston Public Schools, with that property slated to become an elementary school sometime in the future. Again, that the City of Lacey would even consider allowing a retail establishment that sells tobacco and alcohol products in such close proximity to these populations is alarming.

I respectfully request that you reconsider the location of this proposed development. As a resident very familiar with this particular area, I can say with confidence that there are countless alternatives that could be located further away from an area so highly populated with families and children at play.

Thank you for your consideration.
