

ADDENDUM NO. 3

TO THE PLANS, SPECIFICATIONS, PROPOSAL AND CONTRACT FOR THE CITY OF LACEY

TERRY CARGIL RESERVOIR

LACEY CONTRACT NO. PW 2019-32

TO ALL PLAN HOLDERS:

You are hereby notified of the following changes, revisions, deletions, additions, corrections and/or clarifications to the plans, specifications, and contract documents for the *TERRY CARGIL RESERVOIR* project. This addendum is made part of these contract documents as though it was originally included in the Contract. The Contractor shall note the location of the Addenda Receipt Acknowledgement on Page B-4 of the Contract Proposal.

Issued this 20th day of January, 2022.

I. <u>ADDITIONS, MODIFICATIONS, AND/OR DELETIONS TO THE SPECIFICATIONS</u>

ITEM NO. 1: Section D

1) Modify the number of working days. Delete Section 1-08.5 Time of Completion with the following

1-08.5 Time of Completion

(*****)

Delete this section and replace it with the following:

This project shall be completed in accordance with the provisions of Section 1-08 of the Standard Specifications within 480 working days. All design and submittal work for this project shall be completed within the first 42 calendar days of the contract.

ITEM NO. 2: Section D 2) Modify the number of submittal days. Delete Section 1-06.1(2) Request for Approval of Material (RAM) with the following

1-06.1(2) Request for Approval of Material (RAM)

(*****)

Delete this section and replace it with the following:

The first paragraph is revised to read:

The COL RAM shall be used with all submittals. The COL RAM shall be prepared by the Contractor in accordance with the instructions and submitted to the engineer for approval before the material is incorporated into the Work.

Supplement this section with the following:

The Contractor shall submit sufficient information that describes the materials proposed as defined and described in these specifications and plans within **42 calendar days** following the Notice to Proceed.

The City of Lacey has identified the following items as long lead items.

- 1. Composite Elevated Tank
- 2. Standby Generator
- 3. Control Valves
- 4. Control Panel

Long lead items shall be submitted within 42 calendar days of Notice to Proceed. The list above may not include all long lead items. The contractor is responsible for identifying all items and shall notify the Engineer of any additional items.

The Contractor shall submit one electronic of catalog cuts, shop drawings, and a material testing sample, as required for all items to be used in this contract for approval. The Contractor shall circle or highlight products and materials that are specific to this project, and cross out items that are not for this project.

All items not in exact compliance with the specifications must be noted as a change. The Contractor shall include an explanation, product specifications, sample articles, and any other items that will aid the Engineer in approving an item not in exact accordance with the specifications.

All submittals shall be submitted in Adobe Acrobat format and submittals that exceed 10 pages shall include a table of contents. Submittals that are not submitted in the format outlined may be rejected outright and the Contractor is required to resubmit in the correct format. The form and the submittal shall be sent in the same e-mail. Submittals that exceed 10 MB shall either be provided on a flash drive or via an internet link.

The Engineer will review submittals within 10 working days. The Contractor may request additional working days if approval or disapproval is not received in 10 working days. The Contractor may not request additional working days for failure to submit sufficient information to approve an item, or for rejection of an item not in accordance with the specifications.

Resubmittals shall be submitted within 5 working days from City's transmittal, to the contractor, of the Engineer reviewed submittal. If the submittal is "Rejected", the contractor shall resubmit the entire submittal. If the submittal is marked "Revise and Resubmit", the contractor shall submit items that are identified in the Engineer's comments.

Any material purchased or labor performed prior to such approval shall be at the Contractor's risk. The Contractor must receive all material approvals before the materials will be allowed on the project.

Scott Egger, F.E.
